PROFESSIONAL ACCOUNTANCY PROGRAMME (PACC)

Overview
The BSc in Professional Accountancy (PACC) Programme is designed to be a comprehensive and practical course that prepares students for a career in the profession. It is an integrated course that combines academic knowledge with practical skills, allowing students to gain the necessary skills to succeed in the accountancy profession.

Your Development
Upon successful completion of the PACC Programme, graduates will have developed a strong foundation in accounting and finance, which can be applied in a variety of fields such as finance, management, and business. The Programme aims to equip students with practical skills and knowledge necessary for a successful career in accountancy.

Curriculum
The PACC Programme consists of a variety of modules that cover both theoretical and practical aspects of accounting. The course is designed to provide students with a broad range of skills, enabling them to become competitive in the job market.

Diverse Choice of Streams
The PACC Programme offers a variety of streams, allowing students to specialize in areas of interest. The streams include Global Accounting, Global Tax and Governance, and Accounting Analytics.

Global Accounting (GA) Stream
This stream focuses on the principles of international accounting and financial reporting. Students will learn about the differences in accounting practices across different countries and how to apply accounting principles in a global context.

Global Tax and Governance (GTG) Stream
This stream covers the principles of international taxation and corporate governance. Students will gain knowledge in tax law, tax policy, and the impact of taxation on business decisions.

Accounting Analytics (AA) Stream
This stream integrates accounting with data analysis, enabling students to use data-driven insights to inform business decisions. Students will learn to use advanced analytical tools to analyze financial data and make informed decisions.

Minors
Approximately 60% of PACC students study minor fields to add depth to their major. These minors are selected based on individual interest and career goals.

Growth Opportunities
Internships
Students are encouraged to take advantage of internships to gain practical experience. Internships in firms such as KPMG, Deloitte, and PricewaterhouseCoopers provide valuable experience in the accountancy profession.

Enrichment Activities
The PACC Programme offers a range of activities to enhance students' learning experience. These include guest lectures, workshops, and social events to foster a supportive learning environment.

Connect with the World
International Exposure
The PACC Programme provides opportunities for students to study abroad. Students can choose to study in countries such as Australia, Canada, and the United States.

Study Trips
The PACC Programme also organizes study trips to enhance students' learning experience. These trips provide opportunities to explore different accounting practices and cultures around the world.

Acknowledgements
This project was supported by a grant from the Ministry of Education. The authors would like to thank the staff and students at BSC for their contributions to the development of the PACC Programme.

Thanks to Christy, Emma, and John for their helpful feedback on this project.

References
This project draws on the work of PACC Programme staff and students. Special thanks to Sarah, David, and Lisa for their contributions to the programme.

The authors also acknowledge the support of the Ministry of Education and the contributions of all those involved in the development of the PACC Programme.
