INTRODUCTION TO THE CONSTITUENT COLLEGES

Chung Chi College
Website: www.ccc.cuhk.edu.hk

Chung Chi College was founded in 1951. In 1956, the College moved to its permanent site in Ma Liu Shui, which is now part of the University Campus. The College was incorporated as one of the three constituent Colleges of CUHK in 1963.

The College aims to provide students with whole-person education with a broad and balanced development, promoting learning and growing through experiences. Integrating Christianity and Chinese cultures, we endeavour to cultivate love for humanity, open-mindedness, freedom and inclusiveness, and to nurture talent with insightful knowledge, a liberal attitude and global horizon. Our students are expected to have a profound understanding in Chinese and Western cultures, as well as analytical and problem-solving skills to meet the challenges of a changing world.

Chung Chi’s motto, ‘In Pursuit of Excellence’, encourages students to continuously strive and to improve themselves to serve the society in the best way possible.

Excel Yourself through Exploration
To increase students’ international exposure, and to encourage them to develop a global perspective and an openness to different cultures, the College provides students with a wide array of long-term exchange programmes and short-term overseas trips. Places of visit range from Canada, the US, Germany, France, India, Cambodia, Japan, Singapore, to mainland China. Each programme has its specific focus, such as culture, language study, career development, community service, and leadership. Popular programmes among students include the ‘Summer Study Abroad Programme’, ‘Language Study Abroad Programme’ and ‘Study Trip: Exploration of German / French / Japanese Society’.

Diversified Experiential Learning Strategies
Chung Chi students are offered different opportunities to learn from distinguished guests from various sectors. In addition to the ‘Siu Lien Ling Wong Visiting Fellows Programme’, which invites overseas scholars for short-term visits to the College, the ‘Tolo Nocturnes’, an activity held in student hostels, let students closely interact with guests from various backgrounds. To enrich exposure to and knowledge of the arts, the College organises art exhibitions, workshops and talks, and launches the ‘Learning Arts Programme’ to encourage and sponsor students to take arts courses. For popular science, we organise astronomical observation activities and popular science talks with topics related to real life issues. ‘Language Enhancement Programme’ was launched to improve students’ proficiency in English and Chinese through activities like language tables, seminars, immersion camps and study trips. There are other cultural activities, such as cultural and heritage tours, eco-tours, film-screening activities, and workshops on table manners and etiquette.

Enriching College Life
The College always strives for a supportive and inclusive campus, providing an enriching college life and a harmonious learning environment for students from different disciplines and cohorts, with diverse talents, to interact with and to learn from each other. We organise activities that offer many opportunities for local and international students to mingle, and to share cultures and custom, fostering integration, global
knowledge and mutual respect. The College also encourages students to take lead in organising meaningful and creative activities of their own. Signature events organised by student groups include ‘Student Festival of College Founders’ Day’, ‘Chung Chi Singing Contest’ and ‘Fu Cup (inter-hostel sports competition)’, to name a few.

**College General Education**

Designed to foster thinking and learning from multiple perspectives, the Chung Chi General Education extends students’ horizon beyond the scope of their major and minor studies. The curriculum has three components: Freshmen Orientation, Graduation Capstone, and College Assembly. The First Year Courses comprise small group tutorials and lectures. Students may opt for – Senior Seminar, Thematic Overseas Programme (TOP) x Senior Seminar and Service-Learning Programme as their Senior Year Capstone Course. College assemblies can be in the form of talks, performances, seminars or demonstrations, with a wide range of topics in society, culture, politics, and the arts. Moreover, the Shen’s General Education Resource Centre provides a cozy and relaxing place ideal for reading and small group interactive activities.

**Growth through Community Service**

Chung Chi is the only College in CUHK that has established a Service-Learning Centre. Through planning and provision of service opportunities, students not only come into close contact with the disadvantaged, but also undergo substantial personal development. In the ‘Local Service-Learning Programme’, we work closely with local social welfare organisations, secondary schools and social service bodies. In addition, the ‘Mainland/ International Service-Learning Programme’ allows students to undertake a one-month service programme in places like Indonesia, Cambodia, Japan, Korea, Taiwan, Yunnan, and more.

**Scholarships, Awards, Financial Aid and Subsidies**

With generous donations from alumni and eminent members of the community, the College has established various scholarships and endowments, offering around HK$13 million to about 2,000 students every year. Over 700 scholarships and awards are granted to students with outstanding achievements in different areas, including academics, sports, creative pursuits, extra-curricular activities, and services to the community and the College. To support students in life enrichment and potential exploration, a series of non-academic-related awards and subsidies were established, including ‘Excel Yourself through Exploration (EYE) Award’, ‘Find a Learning Opportunity Yourself (FLY) Award’, ‘Dreaming Through Chung Chi Scheme’, ‘S.H. Sung Creativity Award’, ‘Seeds of Good Deeds Project Award’, ‘Quality Activities Award Scheme’, and more.

**Support from Alumni**

Chung Chi now has around 27,000 alumni. Overseas alumni associations have been established in major cities of the US and Canada. Chung Chi alumni actively participate in College events and gatherings to meet up and to share their experience with current students. The alumni association and the College jointly organise the ‘Mentor Programme’ and the ‘Overseas E-mentoring Programme’ to give advice and assistance to students, helping them achieve their goals. Students can meet alumni from different sectors and generations through the programmes.

**Campus Facilities and Environment**

Apart from being a harmonious and comfortable learning environment, the Chung Chi campus was designed in a manner that blends with its beautiful natural surroundings. Famous landmarks on our campus include the Lake Ad Excellentiam, Chung Chi College Chapel and Chung Chi Gate. The College has 10 student hostels, offering over 1,400 hostel places. Other facilities include Lee Hysan Concert Hall, Lingnan Stadium (with football, basketball and volleyball courts in it), tennis courts, multi-purpose halls, Elisabeth Luce Moore Library, a barbecue site, and more.

**New Asia College**

Website: www.na.cuhk.edu.hk

New Asia College was founded in 1949 by Mr. Ch’ien Mu and a group of scholars from mainland China. The College’s aim is to preserve traditional Chinese culture, but to balance it with Western learning to equip students to both understand their cultural heritage and cope with the challenges of the modern world. Established in 1959 as a grant college, New Asia College became one of the three constituent Colleges of CUHK in 1963.

The College organises academic and scholarly activities throughout the year, and invites world-renowned scholars to deliver a range of lectures and talks, including the Ch’ien Mu Lecture in History and Culture, Yu Ying-shih Lecture in History, New Asia Lectures on Contemporary China, New Asia Lectures on Confucianism, New Asia Cultural Talks and the Yen Kwo-Yung Lecture in Life Sciences.

New Asia College has established a number of one-term or one-year exchange programmes with overseas institutions, including Occidental College, University of Illinois at Urbana-Champaign, University of Washington, The University of North Carolina at Chapel Hill, American University and University of
Wisconsin-Madison in the US; University of Leeds in the UK; University of Economics, Prague in the Czech Republic; University of Groningen and Tilburg University in the Netherlands; Bocconi University in Italy; Malmo University in Sweden; Technical University of Denmark in Denmark; University of Alberta and University of Toronto (Mississauga) in Canada; The University of New South Wales and RMIT University in Australia; Nanyang Technological University in Singapore; Asia University, Soka University and Kyoto Sangyo University in Japan; Korea Ewha Woman’s University in South Korea; University System of Taiwan (National Central University, National Chiao Tung University, National Tsing Hua University and National Yang-Ming University); and Beijing Normal University, Fudan University, Peking University and Tsinghua University in China.

The College also organises a wide variety of overseas summer study programmes at Yale University and UC Berkeley in the US, the University of Cambridge and University of Oxford in the UK, Kyoto Sangyo University in Japan, National Central University in Taiwan, Hunan University and Capital Normal University in China, and more.

Every year, over HK$6 million in scholarships are awarded to students who exhibit outstanding academic performance, actively participate in community/student service, demonstrate significant improvement in their studies or experience financial constraints. The College also offers a variety of subsidy schemes to support student initiatives in an extensive range of activities.

To further enhance students’ Chinese and English language abilities, the College organises a wide range of language enhancement programmes and intensive training workshops on presentation and communication skills throughout the year. In addition, to increase students’ knowledge of Chinese history and culture, to empower them to become socially responsible individuals and to equip them with the qualities that contemporary intellectuals and leaders should possess, the College introduced the ‘New Asia Young Scholars Scheme’ in 2013.

New Asia College is located at the highest level of the CUHK campus overlooking the scenic Tolo Harbour. The College is justly proud of its famously beautiful campus, which provides a very attractive study environment. In the 2018–19 academic year, the College’s student population will total about 3,400, around 40% of whom will be provided with hostel accommodation. Since 2002, the College has offered a ‘Guaranteed One-year Residence Scheme’ to ensure that every student gets to experience hostel life.

New Asia alumni remain an important asset of the College. Our ‘Mentorship Programme’ is enriched by enthusiastic alumni who have committed themselves to sharing their invaluable experience with current students. The programme gives students opportunities to learn from the rich personal and professional experiences of College alumni, thus preparing them for the working world. The College also organises alumni reunion activities every year, and all graduates are welcome to join the Alumni Association of New Asia College and establish a lifetime connection with their alma mater.

**United College**

Website: [www.uc.cuhk.edu.hk](http://www.uc.cuhk.edu.hk)

United College was founded in 1956 through the amalgamation of five colleges: Canton Overseas, Kwang Hsia, Wah Kiu, Wen Hua and the Ping Jing College of Accountancy. In 1957, it was incorporated under an ordinance with a board of trustees as its governing body, and in 1963 it became one of the founding colleges of The Chinese University of Hong Kong.

Generous donations from the Hong Kong community allowed the College to establish an endowment fund in 1963 that has been an essential source of funding for student services and development. The College moved to its present Shatin campus in December 1971.
Living up to its motto, ‘Make One’s Virtues Shine and Renew the People’, United College strives to serve the people of Hong Kong, mainland China and the world through integrative education, pastoral care, and the moral and spiritual enhancement of our students. Many United College graduates have gone on to distinguished careers in Hong Kong’s political, economic, social and cultural arenas.

United College places a strong emphasis on whole-person education, broadening its students’ perspectives and enhancing their sense of social responsibility. Our Distinguished Visiting Scholar Lectures, Annual Workshop and College Assemblies provide intellectual stimuli to both students and staff. We established the Tien Chi Microcomputer Laboratory, the first of its kind on the University campus, in 1985 and the Choi Koon Shum General Education Resource Centre in 1995. The Graduate Research Consultant Scheme was established to assist student groups to plan and conduct multidisciplinary research for the College’s compulsory final year General Education course GEUC4011 ‘Senior Seminar’. University postgraduate students are recruited as Graduate Research Consultants every year, and they support the course supervisors on a one-to-one basis.

A wide range of activities is organised throughout the year, including the Shum Choi Sang Mentorship Programme, Group Sense Innovation and Entrepreneurial Project Award Programme, leadership training, social services and incentive schemes, the United College Toastmasters Club, organic farming and environmental protection activities, drama, debates, health programmes, art and cultural activities, and Student Union and student interest group activities. Participation in these diverse activities affords students opportunities to develop and enhance their personal and social qualities.

The College has established exchange programmes with Monash University and University of South Australia in Australia; Peking University in China; Soka University in Japan; Korea University, Pusan National University and Sung Kyun Kwan University in Korea; University of Waikato in New Zealand; Nanyang Technological University in Singapore; National Taiwan University in Taiwan; University of Oulu in Finland; Universite Catholique de Lille in France; Universita Carlo Cattaneo (LIUC) in Italy; University of Bergen in Norway; Universitat Pompeu Fabra in Spain; University of Gothenburg in Sweden; University of Essex and University of Glasgow in the UK; University of Calgary in Canada; and American University, San Diego State University, University of North Carolina at Chapel Hill, University of Rochester and University of South Carolina in the US. To keep pace with globalisation, the College also organises numerous exchange activities under the Globe-Oriented Active Learning (GOAL) programme. The GOAL programme provides students with many avenues to take part in overseas study tours and exchange programmes that encourage them to live and interact with people from different parts of the world. Students can also make use of GOAL scholarships to participate in overseas internships or to attend credit-bearing, short-term courses offered by overseas universities. The Service Learning Internship Programme (SLIP) is established to provide internship opportunities for students in NGOs in Japan and Taiwan.

United College offers a wide range of scholarships and awards to students who demonstrate outstanding performance in academics, sports and extracurricular activities. Scholarships are also available to eligible students who wish to pursue postgraduate studies overseas. To encourage students with financial difficulties to actively participate in college activities while studying, the College offers a Hostel Residence Grant and Off-campus Residence Grant, both of which provide subsidies to students in need to help them with hostel fees and off-campus rentals. In 2018–19, the total value of the College’s scholarships, awards and financial aid will be over HK$10 million, with around 1,800 awards.

The College also promotes moral education through the Mr Shum Wai Yau Moral Education Scheme. To reinforce the College motto, ‘Xin Min’, and to nurture in students a desire to help those in need through social service, the College supports further development of social service programmes for students.

United College is situated on a beautiful campus graced by a cascade and artworks by celebrated artists. The College has expanded considerably in the past few years. At present, its four student hostels can accommodate 1,288 students. The College is planning to build a fifth student hostel on campus. The Si Yuan Amenities Centre, equipped with a pub and two function rooms, is open to students, staff and alumni of the University. The Si Yuan Amphitheatre, an ideal venue for outdoor cultural activities and performances, can accommodate up to 350 people.

Shaw College

Website: www.shaw.cuhk.edu.hk

Shaw College was established in July 1986 through the generosity of Sir Run Run Shaw, a world-renowned philanthropist who kindly accepted an invitation to become the patron of the College.
The College motto, Xiude Jiangxue, is taken from a Confucian saying that highlights the cultivation of virtue and pursuit of knowledge. The College slogan, ‘Excellence with a Soul, Leadership with a Heart’, echoes this motto by promoting the cultivation of a sound moral character in the pursuit of knowledge, and the development of caring hearts among those in high positions. The College has also devoted substantial effort to providing its students with opportunities for whole-person development within five major domains, or the ‘Five Pillars’: nurturing moral character, ‘serving the community’, ‘caring for the motherland’, ‘developing a global perspective’ and ‘protecting the environment’.

Shaw College offers a wide variety of general education courses designed to help students adjust to university life and to provide opportunities for experiential and service learning. College assemblies, high table dinners and high tea workshops also form part of the general education programme, with prominent speakers and persons with special life experiences regularly speaking at engagements aimed at helping students broaden their horizons.

To broaden their international exposure, students are encouraged to take part in semester- or year-long overseas exchange programmes organised by the College, the Office of Academic Links and various departments. The College also offers a variety of overseas summer and winter programmes that promote cultural exposure, language learning or service to those in need, in addition to internship placements in mainland China and other parts of the world.

Under the ‘Distinguished Visiting Scholars Scheme’ and the ‘Sir Run Run Shaw Distinguished Visiting Scholars Programme’, world-renowned scholars and experts are invited to speak to students. Past speakers include Professor Lee Yuen-tseh, Nobel Laureate in Chemistry; Professor Yang Chen-ning, Nobel Laureate in Physics; Professor Yau Shingtung, recipient of the Fields Medal and Wolf Prize Laureate; Professor Andrew Chi-chih Yao, winner of the Turing Award; Professor Charles K. Kao, Nobel Laureate in Physics and the Father of Fibre Optics, and more. The College also organises the annual Shaw Prize Lectures, which feature Shaw Prize laureates in the fields of astronomy, life sciences, medicine and mathematical sciences sharing their knowledge and experience.

The College works hand-in-hand with student bodies to enrich campus life by organising a variety of activities. Annual large-scale student events include the orientation camp, ‘Shaw Lane’ evening bazaar, College Founder’s Day celebrations and a singing contest ‘Shaw Sing’. Shaw College’s many student societies, ranging from resident associations, sports clubs, departmental societies and general interest clubs to the Rotaract Club and Band Society, also present activities of their own design.

In addition to recognising academic excellence, the College also encourages non-academic achievements and has established scholarships and awards to reward active participation or outstanding performance in extracurricular activities, community service, sports as well as the possession of leadership abilities and other talents. Close to a thousand scholarships and awards are available either by nomination or open application.

A number of facilities cater to the needs of staff and students. For example, the Multi-Purpose Learning Centre in the Huen Wing Ming Building is a self-learning hub that facilitates student interaction. The Lecture Theatre auditorium is ideal for seminars and various activities, while the Yueh Chiao Art Gallery on the first floor is frequently used for exhibitions. Sports facilities include an indoor sports and multi-purpose hall, gymnasium, table tennis room, dancing room and outdoor basketball/volleyball court. Other facilities include the Lam Kin Chung Computer Laboratory, a multimedia laboratory, the Lee Woo Sing Hong Kong History Resource Centre, self-study room and music rooms featuring the first floor band room on the CUHK campus. Kuo Mou Hall Student Hostel and Student Hostel II accommodate 1,211 students. The College also provides dining facilities for students and staff members. Adjacent to Student Hostel II is the HERBsnSENSES Chinese Medicinal Plants Garden featuring a statue of Dr. Sun Yat-sen in the centre and a barbecue site nearby. There is also an Alumni Trail lined with plaques engraved with the names of College graduates. For further information on Shaw College, please visit our homepage at www.shaw.cuhk.edu.hk. The latest news and updates on College activities can be found in our monthly electronic newsletter, Shaw.Net, at www.cuhk.edu.hk/shaw/shawnet.
meals at the College, where they are often joined by such distinguished visitors as historians, astrophysicists and novelists, and by College Fellows, all of whom are engaged scholars and innovative teachers. Students meet these Fellows regularly at College events and join them at the Mentor–Mentee gatherings held throughout the year.

The College offers a wide range of bursaries and other forms of financial assistance to students in need to supplement the support already provided by the University and government. It also awards grants throughout the academic year to support student activities. In addition, an extensive range of prizes and scholarships, including top-up hostel and meal benefits, are awarded on the basis of academic excellence at admission.

**Scholarship**

Students take rigorous General Education courses in seminar settings conducive to discussion, discursive writing and debate. These courses are designed to sharpen students’ intellectual acumen and equip them with the ability to engage in independent, reflective and critical thinking. Students are also encouraged to explore other academic and cultural activities, including student government, community service, sports, theatre and music.

**Virtue**

‘Morningsiders’, as our students call themselves, value ideas, diversity, creativity, individuality and civic responsibility. The Morningside student body is one of the most diverse in the University, with residents from a variety of countries and regions. A key characteristic of the College is the high degree of student participation in its affairs. Students are encouraged to be active builders, not merely consumers, of the College culture. College Fellows and distinguished visitors from around the world in residence at the College also contribute their time, energy and knowledge to enriching College life. Our aim is to help students to develop the values, intellectual breadth and practical skills needed to play leading roles in a wide range of disciplines and professions.

**Service**

A sense of social responsibility and engagement is central to the Morningside ethos. All of our students take an active part in community service activities throughout their university years. These and other activities lead them to a deeper understanding of themselves and of how they can have a positive influence on the world around them.
workshops, career development workshops and a non-local to engage in expressive artistic creation. Other student offers S.H. Ho students a tranquil and comfortable space mental wellness. The Wells, located in Chan Chun Ha Hall, Personal Growth Workshops to help students to maintain In addition to the University’s team of professional counsellors, Whole-person Care and Multifaceted Development platform for cultural exchange. new students with an introduction to university life and a international—in a harmonious orientation camp that provides other needs. S.H. Ho College was also the first CUHK College to bring together all students—local, mainland Chinese and international—in a harmonious orientation camp that provides new students with an introduction to university life and a platform for cultural exchange.

A Creative HOME with Harmony

College is an ideal place for students to cultivate interests and show off their talents. With the support of the College and the Student Initiative Fund, S.H. Ho College students have established a variety of student interest clubs, including the SHHO Ving Tsun Martial Arts Society, SHHO Football Team and SHHO Toastmasters Club. These clubs provide a platform for sharing interests and enriching college life. It has also become an annual tradition to celebrate the College’s birthday every November, with students taking a proactive role in organising the SHHOW, a talent contest that showcases their artistic and musical gifts.

In line with the College’s theme of ‘harmony’, local and non-local teachers and students form mentor–mentee teams. Mentors help mentees to adapt to university life, and address other needs. S.H. Ho College was also the first CUHK College to bring together all students—local, mainland Chinese and international—in a harmonious orientation camp that provides new students with an introduction to university life and a platform for cultural exchange.

Whole-person Care and Multifaceted Development

In addition to the University’s team of professional counsellors, S.H. Ho College has an in-house Student Counsellor who provides counselling support. Professionals also hold regular Personal Growth Workshops to help students to maintain mental wellness. The Wells, located in Chan Chun Ha Hall, offers S.H. Ho students a tranquil and comfortable space to engage in expressive artistic creation. Other student development activities include Personality Dimensions workshops, career development workshops and a non-local student adjustment programme. To facilitate students’ whole-person development, the College also offers a variety of scholarships, bursaries and loans, including Whole Person Development Awards, General Education and Talent Scholarships, Student Exchange Scholarships, Scholarships for Academic Excellence, Outstanding Service Awards and Graduate Scholarship. The College strives to achieve its goal of ensuring that more than 50% of eligible students receive scholarships or other forms of financial aid.

Becoming an S.H. Ho Student

Matriculation marks a student’s formal admission into the membership of a College. Matriculation to S.H. Ho College takes place on the first orientation day of each academic year. All local, mainland Chinese and international fresher students are required to attend the matriculation ceremony. Wearing gowns provided by the College, students enter the matriculation hall, where they are greeted by the Master, make a declaration and sign the Matricula. Matriculation is a profound, personal and memorable occasion on which each student makes a declaration to the College Master.

CW Chu College

Website: www.cwchu.cuhk.edu.hk

Origin

Founded in 2007, CW Chu College is named after Dr. Chu Ching-wen (1906–1996), a prominent industrialist and remarkable philanthropist who spent most of his career in Hong Kong. The University chose to perpetuate Dr. Chu’s memory by naming a new college after him.

Vision and Motto

The College was established with the vision of becoming an intimate community of scholars drawn from diverse backgrounds who engage with the world in a spirit of curiosity and generosity. Our vision statement embraces four elements—intimate, international, intellectual, involved—that distinguish the College and lay the path for its continued development. CW Chu College seeks to strengthen interactions between academics and students, encourage students’ interest in intellectual dialogue, enhance their scope and depth of general knowledge, broaden their perspective on the world at large, foster in them a capacity for ethical reflection and conduct, and furnish them with the interpersonal skills needed for life after graduation. In doing so, the College aims to nurture graduates who embody the values exemplified by the late Dr. Chu, which are encapsulated in the College motto, Cultus et Beneficentia: leadership, service, intellectual clarity and ethical conduct.

Full Residence and Communal Dining

CW Chu College is a small college with a student membership of approximately 300. Students in programmes with a normative study period of four years will be offered residence during term time for all four years, and will be required to take up residence (exceptions may apply in cases involving participation in outbound exchange/internship programmes.
and disciplinary or public health issues.* To encourage interaction with fellow students and teachers, students attend communal dinners three times a week and have opportunities to benefit from the wisdom and experience of speakers from all walks of life during the College’s high table dinners.

* Special hostel accommodation may be arranged for students beyond their fourth year and for medical students in their clinical years, who would normally be expected to live in teaching hospital accommodation. These special applications are subject to the availability of hostel places in each academic year and approval of the College.

Small and Intimate
CW Chu College’s small size and full residence and communal dining requirements constitute essential ingredients for building and fostering an intimate, interactive, congenial and caring community of students and academic staff. The College admits no more than 75 students each year who go on to develop relationships and build enduring bonds. The College’s small size allows it to nurture innovation by offering an alternative college experience.

International Character
The College also has a distinct international character. Including incoming exchange students, nearly 35% of our students hail from outside Hong Kong. College Fellows and teaching members alike come from diverse backgrounds, affording students an opportunity to experience multicultural perspectives and gain a global outlook.

Honour Code
Rather than an administration-centred student disciplinary system, the College encourages character formation, personal responsibility, honesty, mutual respect and support. Students pledge to abide by the College Honour Code upon admission, and they take primary responsibility for managing the Code and dealing in a spirit of maturity and self-governance with any behaviour inconsistent with it.

College General Education Programme
The General Education programme at CW Chu College consists of (1) a credit-bearing component that includes an induction course for Year 1 students (GECW1010 University and Society) and a capstone course for Year 4 students (GECW4010 Senior Seminar); and (2) a non-formal component that carries no credit units (GECW1000 Non-formal Learning: extended freshman orientation and communal dining are required, including high table dinners and voluntary social service). There are no college assemblies.

The induction course is a key component of the first-year experience and introduces students to university learning, whereas the capstone course allows students to synthesise their academic skills beyond the limits of their major programmes. They are expected to engage in socially relevant, real-life issues; analyse the related factors, constraints and options; and then present their findings in a cogent, reasoned and persuasive manner. Students are expected to learn and participate actively through lectures, tutorials, presentations, group work and the writing of term papers.

Scholarships and Bursaries
More than 60 scholarships (typically worth HK$10,000 each) are expected to be provided each year. Bursaries will also be provided on a needs basis to help defray some of the extra costs of hostel accommodation and communal dining. Twenty-five admission scholarships will be offered to the entering class, and other scholarships will also be awarded in later years to recognise merit and creativity and to support exchanges.

Mentorship Scheme
The Mentorship Scheme extends and realises the vision and mission of the College. To broaden students’ horizons beyond university learning and enrich their social exposure, the College welcomes mentors—experienced leading figures from all walks of life, including our existing network of Chu Scholars—to discuss their valuable experiences with students and offer them advice and guidance on educational and professional development. In 2017–18, a total of 43 seasoned professionals from different fields and 59 CWC students have joined the Scheme as mentors and mentees. Participating students are expected to interact with their mentors and learn from their real life and work experience.

Internship
The College offers different types of invaluable internship opportunities to its students every year that help enrich students’ learning experience and broaden their horizons. These internships complement the internships provided by other units, and are in some cases less specifically tied to particular major subjects. The College will introduce suitable students to the companies involved, handle the final selection procedure and manage all of the other arrangements.

Exchange Opportunities
The College has been exploring exchange opportunities with overseas universities and developing overseas summer programmes with the aim of raising students’ cultural awareness and helping them to develop cultural sensitivity and a global outlook. All CW Chu College students are eligible to compete for the hundreds of outbound exchange opportunities offered by the University through the Office of Academic Links. In addition, at least 20 one-term exchange opportunities will be assigned to the College in 2019–20.
Service

In line with the College’s educational mission and the University’s emphasis on non-formal learning as an integral part of whole-person development, CW Chu College organises three major types of service programmes: (1) student-oriented college service and activities; (2) social and community service in Hong Kong; and (3) civic engagement and service learning. In addition to engaging in the activities involved in each programme, participating students also gain important planning, evaluation and reporting skills, with guidance from College teachers every step of the way.

Campus Location and Design

The College is situated in Campus Circuit North close to a cluster of new developments (Area 39) that include postgraduate research and hostel facilities. A newly constructed bicycle trail connects the College campus and Area 39 to the University MTR Station.

The College buildings blend in with their lush, green surroundings. In addition to undergraduate living quarters, these buildings also house dining and amenity facilities for the entire College membership and purpose-built space for tutorials, seminars and other collegiate activities.

College Master

Prof. Wai-Yee Chan, Pro-Vice-Chancellor, Chair Professor of Biomedical Sciences and Director of School of Biomedical Sciences, was appointed Master of CW Chu College with effect from 1 January 2017. Prof. Chan committed, ‘I will try my very best to take the College to new heights based on the solid foundation already laid down.’

Wu Yee Sun College

Website: www.wys.cuhk.edu.hk

Wu Yee Sun College was established in 2007 with the generous support from the Wu Yee Sun Charitable Foundation Limited. The College has approximately 1,200 students, with about 300 students joining every year. The founding class was admitted in September 2012.

Motto and Mission

The College motto is ‘Scholarship and Perseverance’. Through its diverse General Education programmes, rich college student life, and numerous cultural and overseas exchange opportunities, the College broadens students’ horizons (scholarship) and encourages them to forge ahead (perseverance) by contributing to society and leading a productive and rewarding life.

In support of its mission, ‘Entrepreneurial Spirit with Social Responsibility’, the College has created an intimate and dynamic learning atmosphere that instils a drive for social entrepreneurship, a passion for creativity and innovation, and acumen in pursuing new projects and ideas, not only for personal gain but also for the common good.

Educational Vision

The educational vision of Wu Yee Sun College is to foster students with ‘Entrepreneurial Spirit and Social Responsibility’. The College particularly encourages students to develop their own initiatives, and unleash their creativity. Through the establishment of the House of Sunny Living, the College promotes healthy and sunny lifestyles among students. The great variety of exchange programmes can broaden students’ perspective to meet the needs of the globalised world.

The mentorship programme and regular College forums offer ample opportunities for students to learn about the many challenges that distinguished individuals from all walks of life have faced. The College’s internship programme not only provides students with a chance to acquire the skill sets necessary to implement projects with the guidance of experienced hands, it also affords them room for creative breakthroughs. Using creative approaches, students can serve the community through the service-learning programme. Students can also avail themselves of a wide range of aesthetic programmes designed to help them to appreciate the finer things in life.

Nurturing Creativity

A signature of the College is its Creativity Laboratory (c!ab), offering an intellectual playground for students to explore ideas across disciplines. Located in the middle of the College campus, c!ab represents the College’s commitment to creating a dynamic learning atmosphere. It is furnished with high-end facilities and professional hardware and software that allow students to develop the drive for creativity and innovation, and to put their imaginative ideas into action. Projects initiated include B/W film development, silkscreen-printing T-shirts with original designs, creation of 3D cake printer, the HK and Tainan Cultural and Creativity Exchange Programme, etc.

The College also boosts students’ initiative in developing projects beneficial to society, and establishes different funding schemes for the purpose, such as the ‘Be Entrepreneurial! Funding Scheme’, ‘Sunny Passion Programme’ and ‘Service-learning Project Funding Scheme’. Support from the College in the shape of project grants and faculty resources can also be secured for projects related to community service, cultural development or expeditions.
**Sunny Living**

The key colour of the College is ‘Green’, signifying the College’s dedication to cultivating environmentally conscious and socially responsible students, and to promoting the concept of sustainable development on campus and in the community as a whole. The House of Sunny Living is the College’s new initiative to encourage healthy and sunny lifestyles. It aims to instil positive energy into students through various activities that strengthen their bodies, mental health and leadership. The House adopts a holistic three-pronged community approach integrating the three dimensions of ‘health and spiritual well-being’, ‘sports for life’ and ‘go green and lead society’.

**International Exposure**

To ensure that all students have the opportunity to gain international exposure, the College expects to provide each student with at least one sponsorship for a term-long or short-term exchange during his/her normative period of study. The College offers hand-picked, thematic term- or year-long exchange programmes that help students to develop a broad perspective on the world, not just by experiencing other cultures, but also by using other cultures to anchor their own. In 2018–19, students have the chance to participate in exchange programmes in 24 institutes across 15 countries, including Canada, the UK, the US, Mexico, Finland, Germany, Sweden, Italy, the Netherlands, Switzerland, the Czech Republic, Australia, Singapore, South Korea and China.

The College also offers a series of short-term outbound learning programmes, including its summer professional learning and internship programme. Previous placements included Deloitte, Suzhou International Science Park, Dorsett Malaysia & Hong Kong, The Peninsula Shanghai, Coca-Cola, Tencent, Sand bankcard-Link and local startups, offering students hands-on business experience, personal network development and opportunities to understand the development of various industries. Cultural exchange programmes enhance students’ language abilities and immersion in various cultures. Overseas service-learning programmes focus on caring and helping the local needy; previous destinations include Sri Lanka, Myanmar, Cambodia, Sichuan, Tainan, and Yunnan. While serving the local community and contributing to society, students can learn the local culture during their stay in other regions.

Our ‘Global Learning Award Scheme’ encourages students to create, design, plan or participate in non-local academic programmes that can better fit students’ interests and needs. Over the past five years, the College has encouraged students to explore different corners of the world, including Tibet and North Korea, to study alternative medicine and the religion in India, to compete in a wine tasting competition in France, to participate in the Model United Nations in Belgium, to explore cultures of the Baltic States and to experience farming in Taiwan.

**College General Education**

All students at Wu Yee Sun College are required to take two College General Education courses—‘Entrepreneurial Spirit and Social Responsibility’ in Year 1 and ‘College Senior Seminar’ in Year 4—that together amount to six units. In addition to these two credit-bearing courses, students are required to attend College Assemblies and one College Forum each term to interact with distinguished speakers from a variety of professions and academic disciplines. The College also offers other General Education activities, such as talks and site visits. The overall aim is to provide students with opportunities to actively take part in learning activities in accordance with the College’s motto, ‘Scholarship and Perseverance’, and mission, ‘Entrepreneurial Spirit with Social Responsibility’.

**Scholarships and Financial Aid**

The College offers a range of scholarships to students, including Admission Scholarships and Awards, Scholarships for Academic Excellence, Student Exchange Scholarships and Awards, and Awards for Creativity, Student Development and Talent. Financial aid is also available to students in need. In 2018–19, about 50% of students may receive scholarships and financial aid in some form.

**Campus, Learning Facilities and Amenities**

The College is located on Residence Lane 1. Its student hostels accommodate 600 students in 300 twin rooms. The College has implemented a ‘Guaranteed Residence Scheme’ offering every student an opportunity to experience hostel life. The guaranteed hostel period for students with a normative study period of four years or above is one academic year. Commuter students, although they do not live on campus, can still enjoy campus life by treating the College as their second home, interacting with fellow students and participating in various hall activities in the College’s comfortable non-residential halls.

In addition to the Creativity Laboratory, other top-notch learning facilities and amenities include the Learning Commons, College Gallery, College Theatre, Study Room, Seminar Rooms, Gymnasium with a full sea view, music rooms and a multi-purpose sports room. These amenities are arranged around the inspiring Central Courtyard and Terrace of Dreams, where students can engage in lively academic debate or read reflectively.

**Lee Woo Sing College**

Lee Woo Sing College was founded in 2007 with generous donations from the Li Foundation (Bing Hua Tang). It is a medium-sized college with a population of nearly 1,350 students, about half of whom are residential. In accordance with
the College motto, 'Wisdom, Humanity, Integrity, Harmony', our aim is to develop leaders for Hong Kong, the mainland of China and the world. The College has been developing positively with care, support and trust from students. Our thematic goal is ‘Infinite Possibilities and Care’. Apart from promoting the College’s spirit—Leadership, Green and Harmony—via participation and leading diversified activities, we hope our students could care for their peers and the society.

Education and Overseas Exchange
The College provides students with whole-person development opportunities through a series of experiential learning programmes, including General Education programmes, Onboarding Programme for Year One Students and overseas exchange opportunities. The College General Education programme emphasises interaction between teachers and students. Besides College Assemblies, High Table Dinners and Forums, a wide range of credit-bearing general education courses, which are interdisciplinary and student-oriented, are offered to students. The Onboarding Programme helps freshmen adapt to University and College life, as well as identify their personal goals via a series of year-round gatherings, workshops and a mentorship scheme. Our overseas exchange programme is divided into short- and long-term schemes. The short-term scheme offers students opportunities to visit mainland cities such as Xian and Xinjiang, and to go as far afield as Western Australia. Students who join the long-term scheme travel to the UK, Canada, Australia, Germany, Sweden, Japan and Singapore for term stays.

Campus and Accommodation
The College has implemented a number of new technologies on campus, including an integrated security system, Hong Kong’s first-ever smart meter system and an Octopus automatic fee collection system, to name just a few. The campus buildings are designed to blend in with their natural surroundings, and most dorm rooms feature beautiful views, overlooking a gorgeous scenery of mountains and the Tolo Harbour. To add colour to college life, the College has also beefed up its unique on-campus communal facilities, which now include a 400-person catering centre offering multinational cuisine, a cafe, a green courtyard equipped for outdoor concerts, a multi-purpose hall, a 100-person mini performance theatre, a full hill-view fitness room, learning commons, a cookery demonstration room, activity rooms and a barbecue area, etc. Our Wardens and hostel tutors offer year-round counselling services and organise cross-floors gathering activities to allow students from different years of study, cultural background and faculties to know each other better, and to embrace the LWS harmonious atmosphere.

Green Life
A ‘green life’ is one of the core collegiate experiences for Lee Woo Sing College students, and one of which they are rightfully proud. In addition to reducing the carbon footprint of our building infrastructure (including the installation of Hong Kong’s first high-performance CIGS solar energy generation system and plasmonic LED lighting system), we adopt a green lifestyle. For example, we were the first College at CUHK to implement an on-campus food waste classification system and to enhance both teachers’ and students’ awareness of the importance of energy conservation and environmental protection. In addition, the College promotes green education in various forms, including Green Ambassador training, visits and workshops, and many other activities. The College has been awarded the Silver Prize in the ‘Public Organisation, Utility and University’ sector of CLP GREEN PLUS Recognition Award in 2014, in recognition of the College’s excellent effort in promoting environmental protection.

Student Activities
The College takes an active role to work with student leaders in organising various student activities. In the past few years, students took the initiative to organise the College anniversary event, recruiting more than two hundred members who contributed to the great success each year. Through these activities, students’ leadership skills were honed and sense of belonging to the College enhanced. The College also organises freshmen orientation activities, festival events and dinner, music and sports events, workshops and interest group activities. New ideas are welcomed. Apart from students’ intellectual development, we cater to their spiritual and physical needs as well. We have been making progress in music, arts and sports, and have been organising regular arts appreciation activities, sunset concerts and sports competitions. The College established its Woo Sing Choir in 2012. More than 200 students have joined the Choir, which had been invited by organisations in the University and from outside for singing performances.

College Assignment
Each undergraduate of the University is assigned to a college. Students admitted need to indicate their college preference. Although students will be assigned college affiliations based on their preferences as far as possible, some may not be assigned to their most preferred colleges as there is a limited quota for each college.
