Campus Life

Campus life is an integral part of a university education. Students can develop a healthy outlook in both mind and body by broadening their vision, experiencing life in all its variety, learning more about their society and enlarging their social circle through extracurricular activities. All of these practices contribute to all-round personal growth.

CUHK offers a multitude of student activities, ranging from physical education and scholarly and recreational activities to service learning activities. Many of these are organised by student unions and by faculty/departmental/affiliated societies. The University currently hosts more than 350 special interest groups and faculty/departmental societies.
