## M.Phil. Programme in Gender Studies 性別研究哲學碩士課程

香港中文大學於一九九八年開辦了香港第一個性別研究哲學碩士課程，作為一個跨科際課程，本課程結合不同學科的理論與方法，提供一個系統訓練，不單為同學深造奠定固的基礎，亦適用於其事業發展。學生除修讀性別研究外，也須在中文大學的任何學系內選修一個學科，如人類學、文化研究、教育行政與政策等。

本課程歡迎來自不同學學科的申請人。學生可以全日或兼讀制形式修讀課程。

Established in 1998-99, the M.Phil. Programme in Gender Studies at CUHK is Hong Kong's first graduate programme in gender studies. The interdisciplinary programme combines expertise from various departments at CUHK to offer systematic training to students. It not only offers a solid foundation for further academic studies, but also provides the skills necessary for career development. Due to the inter-disciplinary nature of gender studies, students will enroll in the Gender Studies Programme and a subject department. Any department at CUHK may be a subject department such as Anthropology, Cultural Studies and Educational Administration and Policy.

Applicants may come from a variety of backgrounds. Students can study full-time or part-time.

## 修讀辦法 PROGRAMME OF STUDIES

學生須修讀以下核心科目，並完成其學科學系的學分要求。Students will need to complete the requirements of their subject departments, and the core courses as described below.

### 性別研究：理論 Gender Studies: Theory

This course addresses the relation of feminism to women's /gender studies and focuses on contemporary developments in feminist theory. How feminist theorists have understood the significance of sexual difference will be considered and how feminism is articulated with theories of representation, subjectivity, and history will be discussed. How gender differences work, conceptually and politically, and the complex relations of gender, racial, and class difference will be explored. This course therefore provides a comprehensive introduction to the contemporary key approaches, theories and debates of feminist theory and the relationship between theory and practice.

### 性別研究：方法論 Gender Studies: Methodology

This course explores philosophical, epistemological and methodological questions in relation to feminist/ gender research. Women's Studies not only signals placing gender issues and women's lives at the centre of substantive concern, but also proposes alternative understanding of what constitutes knowledge and how we come to know. In addition, because of its organic link to feminism, Women's Studies is concerned with transformative practice. Therefore, the conceptual issues surrounding research praxis rather than the technical nitty-gritty of conducting research will be focused on.

### 性別研究高等專題 Advanced Topics in Gender Studies

This seminar aims at engaging students in the most current research in gender studies, providing them with intellectual stimulation and support for the preparation of the thesis. The course will cover a wide range of topics including theory of gender analysis, gender and culture, and gender and linguistics.

### 論文 Thesis

論文可以中文或英文書寫。學生須以性別課題作論文的研究題目，並以其學科的特色進行研究。學生的論文委員會將包括性別研究課程及其學系的老師。

Theses can be written in Chinese or English. Students must explore a topic on gender issues by applying the academic methods, approaches and characteristics of their subject departments. Thesis committees will consist of teachers from both the Gender Studies Programme and their subject departments.
