### 3. PET Bottles Recycling Bins (PET 膠樽回收箱)

There are 36 locations with PET Bottles Recycling Bins in CUHK Campus. 中大校園內共有 36 個位置設置 PET 膠樽回收箱。

PET is used as a raw material for making packaging materials such as bottles and containers for packaging a wide range of food products. PET bottle drink containers are usually transparent in colour (some might be dyed in different colour), with plastic code '1' commonly labelled at the bottom of the containers. In order to support 'waste source segregation' further and to enhance the effectiveness on the recycling of plastics, PET bottles recycling bins are installed in some popular locations in CUHK campus.

PET 是製造大多數飲料和食物器皿的原材料,PET 飲料瓶多是透明 (有些會被染至其他顏色),瓶子的底部通常印有塑料編碼'1'**人**。為進一步支持「源頭減廢」及增加塑膠回收的成效,校園內較受歡迎的地點已設置 PET 膠樽回收箱。
