Project title: Flipped Learning in a Financial Management Course

Principal supervisor: Dr. Anson C. K. AU YEUNG

Department / Unit: Finance

Project duration:　　　From January 2016 to December 2016

Date report submitted: 16 June 2016

1. Project objectives

The objective of this project is to develop ten micro-modules to facilitate flipped learning in FINA2010 Financial Management. The ten micro-modules are organized into three big themes. Each theme features several online mini-lectures, as well as in-class activities. By adopting flipped learning, students are required to watch the videos before class, thus allowing for more in-class activities.

Currently, the project is on track and there are no changes on its objectives.

2. Progress on process, outcomes or deliverables
