Educational Technology and Related Education Conferences
for June to December 2013

Prepared by Clayton R. Wright, crwr77 at gmail.com, May 13, 2013

The 29th edition of the conference list covers **selected events** that primarily focus on the use of technology in educational settings and on teaching, learning, and educational administration. Only listings until December 2013 are complete as dates, locations, or Internet addresses (URLs) were not available for a number of events held from January 2014 onward. A significant challenge during the assembly of this list is incomplete or conflicting information on websites and the lack of a link between conference websites from one year to the next.

An explanation for the content and format of the list can be found at http://newsletter.alt.ac.uk/2011/08/why-distribute-documents-in-ms-word-or-openoffice-for-an-international-audience/. A *Word 2003* or an *OpenOffice* format is used to enable people who do not have access to Word 2007 (or higher version) and those with limited or high-cost Internet access to find a conference that is congruent with their interests or obtain conference abstracts or proceedings. (If you are seeking an interactive listing, refer to online conference sites.) Consider using the "Find" tool under Microsoft *Word's* "Edit" tab or similar tab in *OpenOffice* to locate the name of a particular conference, association, city, or country. If you enter the country "Singapore" in the "Find" tool, all conferences that occur in Singapore will be highlighted. Or, enter the word "research" or "assessment". (Note that key words such as "research" or "assessment" may not be present in the conference title, yet these topics could be discussed during a particular conference.) Then, "cut and paste" a list of suitable events for yourself and your colleagues.

Please note that **events, dates, titles,** and **locations may change** and **some events may be cancelled**. Thus, **CHECK the specific conference website** not only for basic information, but to **assure yourself that the conference is legitimate**. (It would be advantageous to examine http://fakejournals.blogspot.ca/ or Jeffry Beale's list of questionable publishers and organizations http://scholarlyoa.com/2012/12/06/bealls-list-of-predatory-publishers-2013/ so that you could consider whether you want to attend events sponsored by these organizations.) **All Web addresses were verified** at the time of publication. An organization may change its Web address, for example, from .org to .edu or .net.

No liability is assumed for any errors that may have been introduced inadvertently during the assembly of this **FREE** conference list. Kindly retain the contact information when you re-distribute the list or mount it on the web as that is how I receive updates. Prior to attending a conference, consider reading "How to Get the Most Out of a Conference" by Stephen Downes. The article is available from http://halfanhour.blogspot.ca/2011/11/how-to-get-most-out-of-conference.html. crw
