In JCL 28.337-368, (2000), a paper by Li Wendan entitled 'Numeral classifiers as a grounding mechanism in Mandarin Chinese' was published. It has come to our attention that substantial portions of this paper directly resemble parts of a similar paper by the same author entitled, "The pragmatic function of numeral classifiers in Mandarin Chinese," which was published in the *Journal of Pragmatics* 32.1113-1133, (2000).
