

Below is the screen dump for the problem encountered by applicants who use IE 7 to submit online application.

The screenshot shows a security warning dialog box with a red shield icon containing a white 'X'. The main heading reads "There is a problem with this website's security certificate." Below this, the text explains that the certificate was not issued by a trusted authority and that such problems may indicate an attempt to intercept data. A bold recommendation states: "We recommend that you close this webpage and do not continue to this website." Three options are listed: "Click here to close this webpage." (with a green checkmark icon), "Continue to this website (not recommended)." (with a red 'X' icon), and "More information" (with a blue downward arrow icon).

Please continue by choosing the second option 'Continue to this website (not recommended).'
