The Bachelor of Nursing is a four-year full-time credit-based programme designed to prepare students for a career in nursing. The programme aims at equipping those who aspire to be nurses with a strong theoretical and knowledge base in biological, behavioral and nursing sciences; the ability to make critical, informed judgments and reasoned decisions in nursing practice, and the skills to provide quality patient care. Successful completion of the programme will enable the graduate to become a registered nurse in Hong Kong.

**Clinical Nursing Practice**

Clinical nursing practice is an integral part of the programme and is arranged in blocks of field practice in each academic year. These blocks of clinical practice, with nurse instructors and clinical mentors as preceptors, aim at orientating and enabling students to apply their learning in clinical settings. These blocks of clinical practice form a key component of the programme which enables the graduate to become a competent and registered nurse in Hong Kong.

**Eligibility Requirements**

Students may choose any subjects from the following electives (not limited to):

- Cultural and Nursing
- Disaster Nursing
- Critical Care and Therapeutic
- Application of Public Health and Epidemiology in Nursing
- Student Exchange Programmes and many more.

**Programme Structure**

The programme is well-designed and integrated across four years to prepare students to become professional nurses with a strong foundation in theory and knowledge. Beginning with knowledge and skill-based training, it covers all aspects of nursing from basic nursing to nursing care for individuals with complex health problems.

**Programme Outline**

There are 26 major courses throughout the four-year study, altogether making up a total of 140 credit units to be taken. Below is the programme outline:

**Bachelor of Nursing**

- **Nursing Sciences**
  - Year 1: Foundations of Health
  - Year 2: Sociology and Health
  - Year 3: Individual and Health
  - Year 4: Integrated Care and Health
- **Biomedical Sciences**
  - Year 1: Biomedical Sciences
- **Nursing Practice**
  - Year 2: Fundamental Nursing Practice
- **Clinical Skills**
  - Year 3: Clinical Skills
- **Health Promotion**
  - Year 4: Health Promotion
- **Community Health**
  - Year 4: Community Health
- **Elective Courses**
  - Year 4: Elective Courses
