Thesis writing

- Introduction to Research & Thesis Writing 2
  (Arts, Business Administration, Education, Law & Social Science)

- Introduction to Research & Thesis Writing 3
  (Engineering, Medicine & Science)

- Thesis Writing Workshop 4
  (Arts, Business Administration, Education, Law & Social Science)

- Thesis Writing Workshop 5
  (Engineering, Medicine & Science)
Introduction to Research & Thesis Writing
For Arts, Business Administration, Education, Law & Social Science

Speaker
Dr Yvonne Loong
Senior Lecturer, Independent Learning Centre

Designed for
First year postgraduate research students in Arts, Business Administration, Education, Law and Social Science.

Objective
During the workshop, participants will be introduced to areas and concerns important to thesis writing: overall thesis structure; discourse & language features of thesis sections; organization & signposting; and proper citation practices & styles.

Structure
3-hour lecture including a Q&A session

Medium of Instruction
English

Brief Description
Important procedures in writing theses and scholarly essays; specific format and rules commonly adopted for bibliographic references and citation notes.

Follow-up Workshop
Participants are greatly encouraged to attend the Thesis Writing Workshop for more intensive training during their second year of study or when they have a research proposal already prepared.
Introduction to Research & Thesis Writing
For Engineering, Medicine & Science

Speaker
Professor Tan Lee
Professor, Department of Electronic Engineering

Designed for
First year postgraduate research students in Engineering, Medicine and Science.

Objectives
- to re-visit the goal and meaning of academic research
- to identify key issues involved in carrying out thesis research and in thesis writing

Structure
2.5-hour lecture including a Q&A session

Medium of Instruction
English

Brief Description
The goal and meaning of research; different types of research; choosing a research topic; scientific writing; writing for the audience; writing styles.

Follow-up Workshop
Participants are greatly encouraged to attend the Thesis Writing Workshop for more intensive training during their second year of study or when they have a research proposal already prepared.
Thesis Writing Workshop  
*For students in Arts, BA, Education, Law & Social Science*

Speaker  
Group 1: Dr Amy Dai, Lecturer, English Language Teaching Unit  
Group 2: Dr Allen Ho, Senior Lecturer, English Language Teaching Unit

**Designed for**  
Postgraduate students in Arts, Business Administration, Education, Law and Social Science who are in the process of writing their theses. This workshop is particularly suitable for students who have already prepared a research proposal, and are in the second or later years of their graduate degree programs.

**Objectives & Description**  
At the end of the workshop, participants will be able to:

- describe the basic structure and function of different chapters in a thesis;  
- summarise, paraphrase, synthesise and quote sources in the correct academic style;  
- adopt a formal style and tone in academic writing;  
- apply a variety of strategies for improving lexical choice, sentence complexity, and grammatical accuracy;  
- apply a variety of strategies and editing techniques for clear and concise writing;  
- analyse and critique samples of published academic writing; and  
- use online resources for self-initiated language learning.

**Structure**  
3-hour workshop

**Medium of Instruction**  
English

Thesis Writing Workshop
For Engineering, Medicine & Science

Speaker
Dr Jose Lai
Director, English Language Teaching Unit

Designed for
Postgraduate students in Engineering, Medicine & Science who are in the process of writing their theses. This workshop is particularly suitable for students who have already prepared a research proposal, and are in the second or later years of their graduate degree programs.

Objectives & Description
For Engineering students:
- to introduce the basic structure of a thesis
- to identify the basic structure and function of a general introduction
- to identify the language features of the results and general discussion sections
- to analyse the form and function of the thesis title and summary or abstract
- to introduce some key writing strategies for clear and concise writing

For Medicine and Science students:
- to introduce the basic structure of a thesis.
- to identify the basic structure and function of a general introduction
- to identify the language features of the results and general discussion sections
- to analyse the form and function of the summary or abstract
- to introduce some key writing strategies for clear and concise writing

Structure
3-hour workshop

Medium of Instruction
English
