

Question: Can co-host or alternative host add poll questions during a ZOOM meeting?

Answer:

- To launch polls: host and co-host (*alternative host is someone who can be the host when the original host is not available. There is only one host in a meeting).
 - To add / edit poll questions: the original host who scheduled the meeting.

- Note: Only the original meeting host can edit or add polls during a meeting. If the host or co-host role is transferred to another user, that user will only be able to launch polls already created.*

- After the meeting has been scheduled, from the meeting management page on the web, scroll to the bottom to find the Poll option. The original host can click Add to begin creating the poll.
