

THE CHINESE UNIVERSITY OF HONG KONG

Micro-Module Courseware Development Grant

Scheme 1: Basic Scheme

Interim Report (2017-18)

Report due 31 May 2018.

Please return by email to mmcd@cuhk.edu.hk

PART I

Project title: **A flipped model to facilitate transition from pre-clinical to clinical study**

Principal supervisor: Professor Albert LI & Dr Isabel HWANG

Department / Unit: Department of Pediatrics (PWH) & School of Biomedical Sciences

Project duration: From December 2017 to October 2018

Date report submitted: 4 June 2018

1. Project objectives

The project is on track to meet its objectives. The project has not been changed as a result of the experience of working on the MMCDG project.

2. Progress on process, outcomes or deliverables

A number of items have been completed so far:

- Source materials have been prepared for micro-module 1-3
- Filming was conducted for the demonstration of spirometry in ITSC (studio room)
- Narrations for micro-module 1-3 have been recorded by a student helper in ITSC (studio room) and edited

Obstacle

- There has been a slight delay due to date setting for filming with all key members of the project

Remaining tasks

- To compile all the materials into individual micro-module using the software Articulate
- The project will be completed on or before the grant expiry date.

3. Evaluation Plan

The evaluation plans have not been changed and will be conducted once the micro-module videos are ready for preview

4. Dissemination Activities (reports, websites, video links, products, etc.)

The videos are not yet ready for preview but they will be updated to the MMCDG committee once all the materials are compiled together.
