

Professional Development Opportunities in Educational Technology and Education

(Formerly Educational Technology and Education Conferences)

for November 15, 2021 to June 2022, Edition #46

Prepared by Clayton R. Wright, crwr77 at gmail.com, November 13, 2021

The **46th edition** contains **selected professional development opportunities** that primarily focus on the use of technology in educational settings and on teaching, learning, and educational administration. Only listings until June 2022 are most complete as dates, locations, or Internet addresses (URLs) were not available for a number of events held after that date. This list was started 23+ years ago to cover in-person events. But now, many professional opportunities are presented in a hybrid or online form. Thus, the title of the list had to be changed.

A significant challenge during the assembly of this list is incomplete or conflicting information on websites and the **lack of a link between conference websites from one year to the next.**

An explanation for the content and format of the list can be found at <http://newsletter.alt.ac.uk/2011/08/why-distribute-documents-in-ms-word-or-openoffice-for-an-international-audience/>. A *Word* or an *OpenOffice* format is used to enable people with limited or high-cost Internet access to find a conference that is congruent with their interests or obtain conference abstracts or proceedings. Consider using the "Find" tool under Microsoft *Word's* "Edit" tab or similar tab in *OpenOffice* to locate the name of a particular conference, association, city, or country. If you enter the country "Australia" or place, such as "Hong Kong" in the "Find" tool, all conferences that occur in Australia or Hong Kong will be highlighted. Or, enter the word "research" or "assessment". (Note that key words such as "research", "assessment" or "MOOCs" may not be present in the conference title, yet these topics could be discussed during a particular conference.) Then, "cut and paste" a list of suitable events for your colleagues.

Please note that **events, dates, titles, and locations may change** and **some events may be cancelled**. Thus, **CHECK the specific conference website** not only for basic information, but to **assure yourself that the conference is legitimate**. Some conferences are not quality-focused. I genuinely try to compile a list of events that will give you value for your time and money. But, I may not always succeed. Check your "gut". Take the time to **conduct your own due diligence** for any events you want to attend or submit a paper to.

All Web addresses were verified at the time of publication. **No liability is assumed for any errors that may have been introduced inadvertently** during the assembly of this **FREE** list of events. Kindly retain the contact information when you re-distribute the list or mount it on the web as that is how I receive updates. crw
