Career Planning and Development Centre (CPDC) of CUHK offers:

- Job Hunting Skills
- CV Writing Skills
- Online Workshops

Visit CPDC website
CU Career Planning and Development Centre
Generative AIs: ChatGPT

Generative AIs offer:
A quick response to questions according to your constraints

Introduce ChatGPT to university students in 100 words.

Attention, university students! Meet ChatGPT, an advanced AI language model designed to assist and support you in your academic journey. Powered by the GPT-3.5 architecture, ChatGPT can engage in dynamic conversations, answer your questions, and provide valuable insights on a wide range of topics. From clarifying complex concepts to offering research suggestions, ChatGPT acts as a knowledgeable companion throughout your studies. While its training data extends until September 2021, it remains a valuable resource for academic assistance, essay writing, brainstorming ideas, and enhancing your understanding of various subjects. Tap into ChatGPT's wealth of information and experience a new level of interactive and intelligent learning.

Caution:
For assessment, the default approach is "Prohibit all use of AI tools"

If in doubt, check the course outline, or consult TA/teachers before using.
Camtasia Studio is available for CUHK Students

★ professional screen recording & video editing software

Follow the installation guide from ITSC
