

# eLearning Pedagogical Support and Consultation

YOUR GOALS, OUR STRATEGIES

## Why are we here for you?

The TDLEG-funded project “eLearning Pedagogical Support and Consultation” aims to develop close relationship with teachers who wish to further enhance their teaching approaches. We wish our partnership can support teachers to develop technology-enhanced and evidence-based teaching practices.

## Our Service

- One-on-one consultations to facilitate the adoption of eLearning teaching practices and enhancement of teaching effectiveness
- We will provide consultation and evaluation service with the ADDIE approach, which stands for Analysis, Design, Development, Implementation and Evaluation.
- Further exploration of e-Learning: blended learning, geolocation learning, problem-based learning

## Analysis

- Kick-off meeting
- Identify your goals on designing curriculum
- Realize your T & L constraints
- Understand target audience's needs
- Explore various delivery options

## Design

- Suggest instructional strategies
- Choose assessment tools
- Introduce technology that fits your learning outcomes

## Development

- Provide tips and suggestions on learning platforms and strategies
- Do a pilot to collect your students' feedback

## Implementation

- Observe how your course is delivered
- Collect students' feedback and study the learning analytics

## Evaluate

- Conduct surveys or interviews with your students
- Provide suggestions on actionable changes

# ADDIE Model
