### Project Objectives

1. To enhance students’ **English communicative competence** needed for completing their final year projects (FYPs) in different disciplines
2. To develop a mobile app with **multi-modal English learning resources** appropriate to discipline and project type for students to organize their capstone project ideas and to practise the English required at **different stages of writing**
3. To provide **tips** on the English skills they need to verbally present and defend their report

### App Design

- **The app ...**
  - **Specific** to a focus discipline
  - Resembles social media
  - Includes notifications and alerts
  - Offers content for different **stages and steps**

### CUHK Adopters

- **Earth System Science Programme (ESSC)**
- **Sports Science and Physical Education (SSPE)**

**Focus**: Final-year research project proposal & report writing

**Other adopters** include Humanities, Accounting & Finance, Engineering, Nursing, Ocean Science etc.

### Learning Modules

- **Customized content** for specific disciplines
- **Pre-** and **post-** **quizzes** to measure learning outcomes
- **Writing tips** for different FYP sections
  - **Macro-level**: Overall structure of FYP
  - **Micro-level**: Language issues (e.g. grammar, word choice)

### To-do List

- **Departmental staff, supervisors and supervisees** can add tasks to **timeline** with **color-coded icons**
- **Students receive push notifications** for upcoming deadlines

### Individual & Group Chat

- **Instant communication** between supervisors and supervisees
- **Message broadcast** to all supervisees

### More Features

- **Log-in**: Single sign-on using university credentials
- **Progress bar**: Overview of student’s learning progress
- **Bookmarks**: Save learning modules for quick access
- **Enquiries and feedback collection**: Improve app features and content
