

**School of Biomedical Sciences, School of Life Sciences
MSc Programme in Biomedical Engineering
Hong Kong Society in Biochemistry and Molecular Biology
The Chinese University of Hong Kong presents ...**

**SEVENTH ANNIVERSARY SYMPOSIUM OF THE CROUNCHER
LABORATORY FOR HUMAN GENOMICS**

Date: December 19, 2011

Venue: SC L2, Science Centre

SPEAKERS (IN ALPHABETICAL ORDER)

Queenie VONG, PhD

St Jude Children's Research Hospital,
Memphis, TN, USA

**A role for borg5 during trophectoderm
differentiation**

Wai Hang LEUNG, PhD

St Jude Children's Research Hospital,
Memphis, TN, USA

**Aberrant antibody affinity selection
despite normal mutation rate in SHIP-
deficient B cells**

Koh Cheng GEE, PhD, Assistant Professor
Division of Molecular Genetics and Cell
Biology, School of Biological Sciences,
Nanyang Technological University, Singapore

**Actin cytoskeleton signaling
regulates astral microtubule
organization and spindle orientation**

**Hoi Yeung LI, PhD, Associate Professor,
Assistant Chairman
(Academic)**
School of Biological Sciences, Nanyang
Technological University, Singapore

**A link between Chromosome integrity
and mitotic cell death based cancer
treatment**

**More information about this ASI Symposium and Workshop can be found at
http://www.cuhk.edu.hk/lifesciences/news_and_events2011.html**
