

Bioinformatics Course on

# MICROBIAL GENOMICS AND APPLIED ARTIFICIAL INTELLIGENCE

Face to Face lessons including:  
8 lectures +  
1 computer practical session

## You Will Learn :

- AI modelling techniques for solving complex problems
- Analysis of genetic sequences and understanding of evolutionary relationships in microbial communities
- Exploring diversity and dynamics of microorganisms in microbiome studies
- Generating human microbiome genomes using advanced algorithms
- Identifying virulence factors and microbial resistance genes

## COURSE DETAIL:

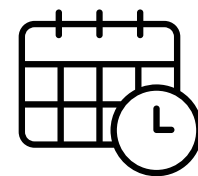

Course Fee

**\$2500**

Application Fee

**\$100**

The payment method will be notified to the successful applicants shortly.

**25 - 27 March 2024**

**Prince of Wales Hospital,  
Sha Tin**

**MLT Board 12 CPD points  
(Programme/Activity Code: 17230301)**

**15 CME points for attendance pre-approved  
by the HK College of Pathologists (PP)**

**Application Deadline:  
20 March 2024**
