

International House Open Call for Residence 2022-23

International House (I-House) of the Office of Student Affairs is calling for students who are passionate in art and cultures to apply for our 2022-23 residence. Full-time undergraduate students who are talented in arts and/or experienced in organizing cultural activities can apply for residence of one Term or full year of 2022-23. Applicants will be required to submit activity proposals and go through selection interviews. Successful applicants are expected to carry out arts/cultural programmes regularly at I-House, and pay the hostel fees for their stay.

I-House is a multi-cultural student residential complex. It offers not only accommodation, but also a platform to promote campus diversity and inclusivity. Last year, our student ambassadors organized a series of arts/cultural programmes including music jamming, drawing workshops, calligraphy classes and other interesting activities. Following the launch of the Cultural Commons@IH4 in Oct 2021, we are also expecting Artist-in-Residence in 2022-23. Artists will convert the space into an art studio, and share their passions with our residents.

Places are limited and the applications will be closed on **June 5, 2022 (Sunday)**. If you are interested to join us, please download the [application form](#) to learn more.
