Photocopiers
The University Library System maintains a number of photocopiers, including Octopus-charging photocopiers and digital colour photocopiers, for the convenience of Library users. Those using these machines are reminded that anyone making photocopies of copyrighted materials assumes responsibility for questions of copyright that may arise from their use. The copyright law imposes severe penalties on violators.

A Library smart card is available at the Circulation Counter for a deposit for copying and network printing in the Library. Users may add value to their cards at the self-service Add Value Machine and make copies in any CUHK library.

Reading/Late Reading Rooms
Late reading rooms are open after the libraries close. Users can check with individual library for details.

User Education/Seminar Rooms
These rooms fully equipped with the latest technology are used for library skill seminars and hands-on training.
